

Schindler Media Network

Keeping in Touch

Schindler Media Network makes paper a communication tool of the past. This in-car media solution, provides relevant information to the riding public in real-time, with minimal effort and maximum attention. Share building updates, news, weather and high quality advertising, ensuring that passengers always stay informed.

Perfect position

The practical placement of this solution inside the elevator makes it ideal for informing passengers, visitors and guests about the latest events in and around the building in a captivating space without distraction.

Benefits

Relevant content: Buildings can display important updates and information according to set times, in a captivating environment.

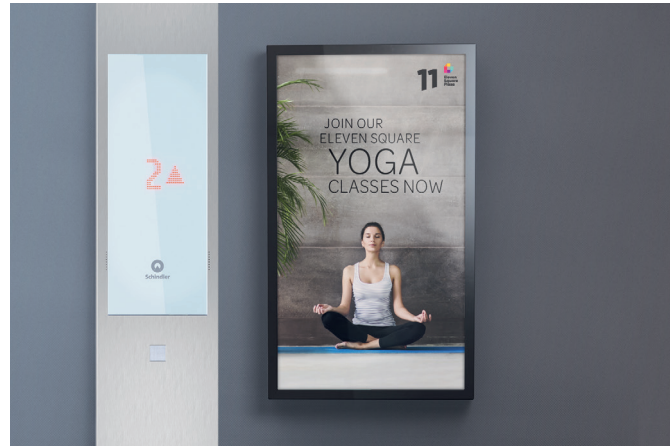

Enhanced Experience: Passengers will always stay informed and up to date while riding in the building.

High Value: All investment, maintenance and support provided by Schindler with no payments owed by our customers, with valuable attention-grabbing content like news and weather included in the offering.

Schindler Media Network

Keeping in Touch

Focus on information

Maintenance work at short notice? Social gathering on the rooftop terrace? Schindler Media Network is the ideal solution for residential buildings to keep tenants up to date and connected. A vibrant internal news channel.

Perfect infotainment

The weekly lunch menu. A tenant appreciation event in the lobby. Communicate with visitors, guests and employees in office locations with both style and ease. An engaging communication platform.

Optimal size

The Schindler Media Network is available in a 32" display – the ideal size for elevator cars. Perfect for animated content, time, weather or any building related information. A long-lasting impression.

Content management

Publishing content on the Schindler Media Network is efficient and easy. The mobile application is user-friendly and allows content to be updated both remotely and in real time along with simple scheduling to make sure your message is perfectly timed. With predefined templates and easy-to-follow steps, communication in your building is quickly digitized, transforming the elevator ride and enhancing the rider's experience.
